Jackson, TN

Professional Summary

Results driven analyst with 3+ years of experience eliciting requirements, translating complex data into actionable business insights, and driving process improvements at a mission-focused nonprofit serving underserved communities. Skilled in Agile project management (Trello, Asana) for sprint planning, backlog prioritization, and cross-functional collaboration. Proficient in SQL, Python, and BI tools (Holistics.io, Looker Studio) to gather stakeholder needs, deliver data-driven recommendations, and enhance operational efficiency. Eager to leverage analytical expertise in healthcare to support improved member outcomes and organizational goals.

Skills

- **Business & Analytical Skills:**
Requirements Elicitation & Gathering, Process Improvement & Optimization, Stakeholder Management & Collaboration, Data-Driven Decision Making, Exploratory Data Analysis, Gap Analysis, Data Storytelling, Business Process Documentation, Problem Solving, Communication, Active Listening, Cross-Functional Teamwork, Data Ethics
- **Technical & Tools:**
Project Management: Asana, Trello (Sprint Planning, Backlog Management, Workflow Visualization).
Technical: Microsoft Excel (Advanced, Passed LinkedIn Skill Assessment), Google Sheets SQL, Python (Pandas, NumPy), R (tidyverse, dplyr), Holistics.io, Looker Studio, Google BigQuery, Jupyter Notebooks, RStudio

Professional Experience

Data Analyst

LaunchCode (Nonprofit), Full-time

July 2022 – July 2025 (3 years 1 month)

Saint Louis, Missouri, United States

- Partnered with cross-functional stakeholders to elicit and document business needs; designed and executed complex SQL queries on large datasets to identify trends, delivering actionable insights that informed strategic decisions and process enhancements.
- Translated business requirements into interactive dashboards (Holistics.io, Looker Studio), enabling non-technical stakeholders to self-serve insights, accelerating decision-making, and supporting operational improvements.

- Managed Agile-like project workflows, including sprint planning, task tracking, backlog prioritization, and visualization using Trello (initially) and Asana (post-migration), while participating in stand-ups and retrospectives to ensure timely delivery of data insights.
- Collaborated with cross-functional teams to translate data findings into business strategies, contributing to mission-driven outcomes for underserved participants entering tech careers.

Data Analyst Associate

LaunchCode (Nonprofit), Full-time

February 2022 – July 2022 (6 months)

Saint Louis, Missouri, United States

- Supported requirements gathering and data preparation using Python and SQL for team projects focused on process optimization and strategic recommendations.
- Created preliminary reports and visualizations to support management's strategic recommendations.

Certifications
