PROFESSIONAL SUMMARY

Remote data analyst with 3.5 years supporting education and workforce programs. Builds stakeholder-facing dashboards and analysis in SQL, Python, Power BI, Tableau, Holistics, and Looker Studio. Comfortable in Agile delivery (Trello/Asana). Looking for Data Analyst / BI / Analytics roles that value demonstrated skills and portfolio work; open to remote or local/hybrid in the Memphis-Jackson, TN area.

SKILLS

Analysis & programming: SQL (SSMS, BigQuery), Python (pandas, NumPy, scikit-learn, Streamlit), R (tidyverse)

BI & reporting: Power BI, Tableau, Holistics.io, Looker Studio, Excel

Working style: Requirements gathering, dashboard design, data cleaning/QA, EDA, Agile (Trello, Asana)

EXPERIENCE

Data Analyst | LaunchCode (remote — St. Louis)

Feb 2022 – Jul 2025

Promoted from Data Analyst Associate (Feb-Jul 2022) to Data Analyst. Supported job-placement programs for non-traditional talent.

- Built and maintained interactive dashboards in Holistics.io and Looker Studio so program staff could self-serve metrics instead of waiting on ad-hoc reports.
- Wrote complex SQL against large operational datasets to surface trends and support decisions on program operations and participant outcomes.
- Turned stakeholder conversations into documented requirements, then delivered analysis and visualizations used in sprint planning and retrospectives.
- Ran Agile workflow in Trello, then Asana: backlog, sprint tracking, and stand-ups with cross-functional program teams.

SELECTED PROJECTS

Steam Games Hardware Recommender | Python, Streamlit, scikit-learn

2026

ML ZoomCamp capstone. Recommends Steam games from PC hardware using cleaned Steam/benchmark data, fuzzy matching, and a Random Forest model. [Code](#).

- End-to-end pipeline: ingest, clean, engineer features, train, version the model, and deploy a Streamlit app.

Hotel Revenue & Parking Trends Dashboard | SQL, SSMS, Power BI

2021

Built a SQL Server database from cleaned Excel files and a Power BI dashboard on revenue by hotel type, parking demand, and seasonality in ADR and occupancy.

- Full path from messy spreadsheet to queried warehouse-style tables to an interactive report answering specific business questions.

Tableau and analysis projects | Tableau, Python, Excel, R

2021

[Airbnb market overview](#), [London bus safety](#) by borough, and [Billboard holiday-chart analysis](#).

Also: [Superstore KPIs](#), [entry-level jobs viz](#), [sales EDA](#), [medical data viz](#), and [Bellabeat case study](#).
